Introduction

Closing meetings on dissemination of project results were held in all countries participating in the ECOLES project. In Bulgaria, the event took place on March 25, 2022 in Pleven. Attendees were introduced to the goals, objectives and results of the ECOLES project, achieved over a period of 18 months. The participants exchanged ideas and experiences on the topics of the project and its results.

The event was attended by a total of 39 representatives of educational institutions (incl. chief and expert from Regional department of education, directors and teachers from different schools, educators) and 7 students aged 7-18. All participants were divided into two main groups.

Preparation

An invitation was prepared for the organization of the event, which was sent to primary schools, high schools and other educational institutions. / Picture 1 /

Results of the ECOLES project dissemination event

The conference included the following activities: - Presentation of the ECOLES project; - Presentation of the results of the survey (IO1); - Presentation of the educational material and Guidelines for trainers/teachers (IO2); - Presentation of the ECOLES virtual consumer manager game (IO3).

After the presentation of the modules and all other results of the ECOLES project, each participant get acquainted and try the computer game. The game was presented by school students from Stoyan Zaimov High School, Plevna, who participated in the pilot testing /4 students – 7-12 years old and 3 students 13-18 years old/.

At the end of the presentation they ask additional questions, due to which they were found satisfied with the developed training materials.

All participants filled in questionnaires. The questionnaire contained 5 main questions about the results of the ECOLES project activities.

The results of the questionnaire replies are more than satisfactory.

All 100% of the participants of the event answered that all modules are useful and they learned new information about the young consumers. About 97% of the participants answered that The ECOLES virtual consumer game is appropriate for 7-18 years old students and it can be used in different curriculums.

Regarding the preferred training module, the graphs shows that the preferences are for all modules and the most interesting are the modules related to Consumer Rights, Food Safety and Digital Skills;
